DHIRAJ BHAGADE

Computer Engineer | Software Development |

+91 7387890658 | dhirajbhagade2006@gmail.com | Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Third-year Computer Engineering student with a strong foundation in Java, Python, C/C++, Data Structures & Algorithms, and problem-solving. Hands-on exposure to software development through a Python internship and practical work across web, database, and IoT applications. keen interest in software development and technology. Strong foundation in programming, problem solving, and logical thinking. Eager to learn new technologies, work on real world projects, and contribute effectively in a collaborative environment.

TECHNICAL SKILLS

Programming

Java, Python, C, C++

Core CS

DSA, OOP, DBMS, Problem Solving

Web

HTML, CSS, JavaScript

Database

SQL

Tools

VS Code, GitHub, Antigravity

SELECTED PROJECTS

SportTrackOTM — Sports Management Platform | *Academic Project • In Development*

Web Application • Database • Application Design

- Developing a sports-focused platform concept for organizing player, coach, training, match, and performance information.
- Planned modules include player profiles, training records, match statistics, performance tracking, and role-based dashboards.
- Using the project as a practical learning exercise in web development, database design, UI planning, and software engineering.

GenSun Battery — Business Website | *Real-World Project • In Development*

Web Development • Responsive Design • Product Showcase

- Developing a professional business website for GenSun Battery Manufacturing Company to present products, pricing, warranty information, and company details.
- Designed customer-facing sections for battery models, product information, contact details, and business information.
- Focused on a clean, responsive interface suitable for practical business use and future deployment.

IoT Fall Detection & Emergency Alert System | *Academic Project • In Development*

ESP32 • MPU6050 • Arduino IDE • C/C++ • I2C

- Building a wearable-oriented safety prototype that detects potential falls using motion data from the MPU6050.
- Integrated the MPU6050 with an ESP32 through I2C communication for real-time sensor-data acquisition.
- Designed a local emergency workflow using an alert output and SOS input for immediate indication.
- Structured the system for future expansion with cloud connectivity, GPS/location, and mobile notifications

EXPERIENCE

Python Intern | L&D INFOTECH Pvt. Ltd., Pune

June 03, 2024 – July 15, 2024

- Completed hands-on training in Python with exposure to software development, data analysis, and web development.
- Applied programming concepts through practical coding and development-oriented tasks.
- Strengthened structured programming, debugging, and problem-solving skills in a professional learning environment.

EDUCATION

B.E. Computer Engineering | Flora Institute of Technology *:- Pursuing • 8.14 SGPA*

Diploma in Computer Engineering | TSSM's BSCOER, Narhe *:- Completed • 79.40%*

SSC | *87.40% • 2021–22*

CERTIFICATIONS & TRAINING

- Python Internship — L&D INFOTECH Pvt. Ltd.
- Barclays Lifeskills Programme – GTT Foundation
- WNS Cares Foundation — Make My Career Training
- Data Analytics with ChatGPT & Power BI

LANGUAGES

English • Marathi • Hindi
